

Washington, D.C. – U.S. Congressman Tom Rooney (R-Fla.) today issued the following statement after the President accepted General McChrystal's resignation as Commander of NATO and Coalition forces in Afghanistan:

"Our campaign in Afghanistan is at a critical juncture. In light of the second change of command in less than a year, mounting concern over the progress on the ground, and uncertainty about the future of our mission, I humbly request that the Commander in Chief address the Congress on the status of our engagement in Afghanistan."
